

26.1.22

The students from class 2 H discuss live of 1 hour with a class from Poland themes related to SDG 6 "Clean water and sanitation".

#### About the class :

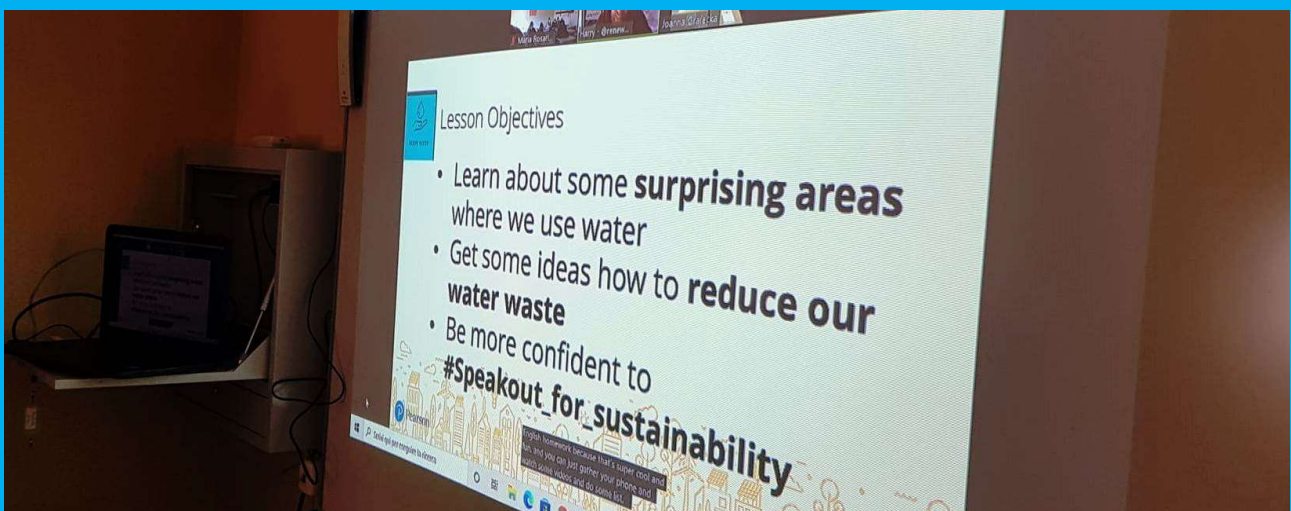

Out of 17 UN adopted global Sustainability Development Goals (SDGs) Water Waste lesson concentrates on: SDG 1 - No Poverty, SDG 6 - Clean Water and Sanitation.

71% of the planet is water but only 1% of that is fit to drink. What can we do to make sure every precious drop is drunk and not wasted to excess watering of cotton or the over production of animal products?

Let's look at some of the ways we waste water and some of the ways we can reduce that.

In this lesson student will:

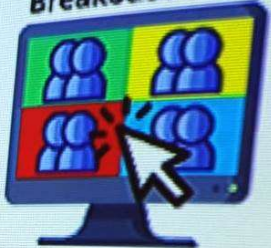

- Watch a video about Water use in the fashion industry
- Learn words related to water waste
- Talk to learners in different countries about their own water usage
- Focus on ways they can reduce their water consumption and that of people on the whole
