

**Class 2N**

Project 2: *Climate changes, what if?* (also an eTwinning project) *A presentation and discussion on goal n. 13 of the 2030 UN Agenda: Climate Action*

- Pupils did some research about climate change and the goals to be achieved in the next decades.
- They developed the skills of doing research, discussing, questioning and taking responsibility in global problems and raised awareness on combating and adapting to climate change.
- The goal of the project was to develop solutions to mitigate and adapt to the impacts of global climate change.
- They were invited to develop a conscious and effective use of digital tools and the Internet.
- They developed 21st century skills such as collaborative sharing, entrepreneurial, productive, social, communicative, cultural understanding and foreign language proficiency.
