

Rebuilt your home or your school eco-friendly

Imagine you are head of a project to create an eco-friendly home or a school. What major and minor changes could you make in order to achieve your goal?

1. Choose an existing building (your home or your school)!
2. What major and minor changes could you make in order to create an eco-friendly building?
→ Find at least 5 points and put them in a hierarchical order.
3. Also visualize or draw your eco-friendly home/ school! (PowerPoint or collage)
4. Be ready to present it!
