| Sign up now to have your class participate in January 2022. Open to any classroom, anywhere! **Step 1** | Watch for an email in early January to meet your team and get your class Global Goal. **Step 2** | Goals Project 2022 kicks off on January 24th! Celebrate your class Global Goal and start your class project. **Step 3** | In early March, share your Goals Project with other classrooms to teach about you and your Global Goal. **Step 4** | Join for the Goals Project Celebration of Learning on March 6th. Make new friends! Learn the goals! **Step 5** |

Week 1: January 24-30

Classroom objectives this week:

1. Introduce the Sustainable Development Goals to your students
2. Meet our Goals Project Student Ambassador
3. Invite your students to share a message introducing your class to the other classes in the project

Objective 1: Meet the Global Goals

- Print the Global Goals poster and the 17 Goals icon posters and post them in your classroom (select Non-UN Entities)
- Share related videos:
    - **'We The People' for the Global Goals**
    - World's Largest Lesson with Emma Watson
    - Just a Kid
- Share about the #GoalsProject and look at the map of the classrooms around the world joining in. **GOOGLE MAP**
- Have an open class discussion. Discuss how "kids" can make a difference in the world by 2030. Why is it important for students to be involved? What does it mean to take action?
-

Objective 2: Meet our Goals Project Student Ambassadors

In recognizing the importance of student voice and the value in having students

learn from students, we are thrilled to announce our Goals Project Student Ambassadors, Ayush Chopra and Ananya Chopra. Ayush and Ananya will be joining all project long, sharing videos for your students!

- **Welcome to the Goals Project with Ananya joined by some of our Group Facilitators**
- Learn more about Ananya and her work: website and **@WonderAnanya** on Twitter
- **Ayush's #GoalsProject Welcome Video** [Tip: Click "CC" under the video to enable Closed Captioning]
- Learn more about Ayush and his work: website and @WizardAyush on Twitter
