

Week 5: February 21-27

Classroom objectives for this week:

Objective 1: Reflect on Week 1-4 learning and experiences

Objective 2: Hear from Ayush and Ananya, our #GoalsProject Student Ambassadors

Ananya's Week 5 Video, Ayush's #GoalsProject Week 5 Video

Objective 3: Package your solution, share your impact

During Week 5, classes should begin to get their class projects “packaged up” and ready to be shared out with the world.

Reminder: during Week 6, classes will share the link to their final projects.

As classrooms consider ways of packaging and sharing projects,

Students are encouraged to consider (1) audience, (2) medium, (3) message, and (4) call to action.
